The University of Chicago ambulance corps, which has been ordered east, will get its first taste of active service on the field of battle today at a sham fight to be staged at the reserve officers' training corps of the university at Mount Forest, Ill. The "battle" will be fought by about 600 men and will take up the greater part of the day-if one of the armies is not "demolished" before the day is over. The corps will divide into two "armies." one consisting of two battalions and the other of one battalion. The latter will go ahead and intrench itself in the forest and the other will form the attacking army. The ambulance corps will be equally divided among the two armies and they will take care of the "wounded" and "killed." The only thing that will be lacking will be the automobile ambulances, which have not yet arrived. The victor will be chosen by Col. Morgen, student head of the corps, and Maj. Bell, professor of military science and tactics at the university. The battle will be preceded by a fifteen mile hike.

San Antonio, Tex., May '29.—Several dates for definite steps in the formation of the new United States army were made public today by the southern department on receipt of orders from the war department. On June 1 the task of forming new regular army regiments, using parts of old regiments as units, will begin. On July 15 one-third of the national guard troops will be taken into the federal service, on July 28 another third, and on Aug. 5 the last third. Guard units will be held at home stations for fifteen days to give opportunity for recruiting to full strength and then will be sent to training camps.

# **Dress Goods Remnants**

Immense Assortments of the Season's Favored Fabrics Reduced to

95c, \$1.25 & \$1.45 Yd.

Little reckoning has been taken of the prices formerly upon these fabrics—our first and by all odds chiefest object is a sweeping clearance as usual after a splendidly active season.

So here are thousands of yards of the very fabrics you have admired all season—thousands of yards showing the weaves, the patterns and the colorings most favored—thousands of yards showing the staple fabrics we have sold and reordered and sold again, until short but useable pieces are left in a great accumulation.

So this Twice-Yearly Sale of Dress Goods Remnants beginning Thursday morning brings you the advantage of choosing these beautiful woolen dress fabrics at prices that have taken little heed of value. Included is an abundance of staple colors, desired patterns in fashionable weaves, such as:

Broadcloths Gabardines Velours Satin Cloths Coatings Cheviots

Storm Serges French Serges Wool Poplins Vigoreaux Tricotines Plaids

Sports Coatings Wool-and-Silk Poplins Mannish Suitings Shepherd Checks Mohairs

Brilliantines Sicilians Voiles Etamines Panamas Novelty Suitings

Particularly prominent throughout these lots are such staple shades as blue, brown, tan, gray, as well as white and black, and the lengths vary from two to six yards, while the widths vary from 42 to 56 inches. All are priced irrespective of present day value, at 95c, \$1.25 and \$1.45 yard.

Remnants selected from these assortments will not be accepted after purchase for refund, credit or exchange.

# HEED YOUR COUNTRY'S CALL

It is at war with a great military power. Its allies are hard pressed. Unless we act quickly, and with all the resources of this great Nation, WE MAY HAVE TO FIGHT GER-MANY ALONE—a long and costly undertaking.

# THE TIME TO STRIKE IS NOW AND ALL TOGETHER

This war can not be won by a select group of public-spirited citizens. It must be fought to a finish by the entire Nation of one hundred million people, in united and concerted action. EVERYBODY MUST DO HIS PART.' If you do not go to the front, you can help sustain those who do, by responding to the Nation's call for funds.

# SUBSCRIBE TO THE LIBERTY LOAN

Act PROMPTLY and help save thousands of lives and millions of property through quick preparation. Early peace will depend upon the Nation's resolute arming for the conflict. The first step is MONEY. The enemy must see that we mean business by subscribing, and over-subscribing, the LIBERTY LOAN.

Do not depend upon your neighbor's subscription. Be sure of your own. To make the loan successful, everybody must do his full part. The smallest wage earner should purchase at least one \$50 bond. It is a sound investment; earns 3%% interest; is backed by the entire wealth of the richest nation on earth.

This bank will take your subscription. If you do not have the ready money, it will help you acquire one or more bonds out of your weekly or monthly earnings.

Washington View Differs.

This present position of stock market sentiment is a little difficult to harmonize with the view of conditions on the western front at this time, held by the army and navy officials at Washington. The latter assert that the offensive of the allies has spent its force and that there will be nothing more of consequence during this year.

Inability to continue the offensive is accribed to exhaustion of France and the unwillingness of Great Britain to leave the number of men held on the mand because of fear of possible invasion. In the opinion of the war desartment it now rests with the United states to make possible a victory for the allies, and since this country will make but little more than a beginning his year in the transport of men to knope, the outlook is for a long strugda, costly in men and money.

# NEWS OF THE FINANCIAL WORLD

THE federal reserve bank of New York has sent a letter to all the banks and trust companies in the district advising that dollar bonds of all foreign governments will be accepted at 100 per cent of value to secure United States deposits.

Friends of the United Paperboard company are predicting net earnings in 1917 of about \$2,000,000 after the payment of all fixed charges and the preferred dividend. This would leave a balance equivalent to about \$10 a share on the company.

United States deposits

Following its action in providing for a small tax on raw sugar, the Cuban government has issued the following official statement: "The new sugar tax of 20 cents a bag and 6 per cent on net profits of the sugar companies is exceedingly moderate considering that a bag of sugar at present prices is worth \$15.00. This leaves to the producer a net profit of about \$0.00 a bag."

While Russia is declared to be in hard lines, it is still able to place orders in this country for munitions and railroad supplies. It has just placed an order for 10,000 cars. The cost is estimated between \$15,000,000 and \$20,000,000. It is assumed the orders will be paid for out of the money advanced to the Russian government by the United States.

Under what is characterized as enormous demand, steel plates were advanced yesterday \$10 a ton. The minimum price is now 8 cents a pound. Most plate mills are oversold.

The copper market is reported to be showing increasing firmness. Producers have little available for delivery before September.

to receivers here, and at Hanse as City offerings were light. The demand for shipping at all markets was reported slow, however. Prices generally were relatively steady compared to the futures. There were a number of reports received from the country to the effect there would be considerable disappointment as to the amount of corn back. In a few sections country devators are said to hold considerable corn, but in other sections the feeding demand has absorbed the bulk of the surplus and at most points prices are comparatively high.

EW desirable and competent persons or trustees, and, among those who act as such, some move away, resign, fall ill or die. It is difficult and expensive to find and appoint persons to fill vacancies. Then there is the risk to the trust property arising from negligent, careless or fraudulent acts of the trustee. Many persons will not take, and will not know how to take, ordinary precautions for safety in investments, and most persons have all they can do to look after their own business, without taking on unknown duties in unknown

fields of labor. Chicago Title and Trust Company conducts two kinds of business. It deals with titles to real estate and with trusts of all kinds, and trusts often consist largely of real estate and mortgages on real estate.

SALESLADIES—THERE ARE BUT FEW lines of endeavor in the industrial world today which a woman may enter and be on an equal basis with a man so far as earning power is concerned. Salesmanship is the greatest exception to this rule. A few moments spent in answering this ad may bring you future independence, instead of dradgery; pleasant, fascinating work, instead of dradgery; pleasant, fascinating work, instead of just a job. Science shows we are all born into this world with an equal amount of brains. Our future depends upon how we use them. Our salesiadies are making \$400 to \$75 a week, some working only part time. If you have a pleasing personality, ambition, are not afraid to work, and will follow instructions. I can do the same for you investigate. Agole

hours produce more than your weekly sal-ary; pleasant, work among pleasant people; previous sales experience unnecessary; be-tween 12 and 1 o'clock every noon and 6:30 and 9 o'clock every evening, we instruct you how. Drop in. 414-16 North American Bidg., Central 8307. SALESLADIES—BETWEEN THE ACES OF 25 and 35, to represent new line; guaran-teed salary; permanent employment; experi-ence unnecessary. Today-Memorial Day-this store will remain closed during the entire day.

Tharge patrons, who request it, may have tomorrow's purchases posted to June accounts.

# Put a "liberty bond" on your Thursday shopping list

Buy it at Mandel's. "Liberty Bonds" are absolutely safe and earn 31/2% interest. Both principal and interest are exempt from all taxes, except estate or inheritance taxes. \$50, \$100, \$500 and \$1000 denominations—or you can purchase \$10 certificates and later exchange multiples thereof for the bonds. If you desire to purchase bonds of \$500 and upward, on an instalment basis, we will accommodate you. Main committee accommodate you.

Three-day Subway sale--see evening papers

for particulars of important selling of summer mer-chandise—the values so great as to be altogether emexpected at the very threshold of the season.
